Dear Sirs and Madam:

Enclosed is the draft IAG schedule for October of 2014. This will be last IAG schedule submitted this calendar year although it would be revised based on your comments and last one with any substantive changes before the new PBA contract is awarded.

As I have noted to you in letters and elsewhere, the awarding of the new PBA contract is taking longer than expected; we do anticipate an award earlier than March of 2015. Once awarded, the contractor will have to develop Project Management Plans for approval before collecting samples required under the Remedial Designs.

As far as priorities for your review:

1. NJDEP concurrence (or comments) and later EPA signature on the 21-Site NFA with monitoring of Land Use ROD;
2. Approval letter for the Final MMRP RI Report;
3. EPA approval or comments on the Proposed Plan for PICA 111 sites;
4. Review of Annual Reports.

I thank you for your patience.

Sincerely,

A handwritten signature in blue ink, appearing to be "J. M. ...", is written over the typed name.
