**Re: MODFLOW GROUNDWATER MODELING
US ARMY, FORT MONMOUTH
Main Post and Charles Wood Areas
Dated: 10 June 2010**

Dear Mr. Quinn:

The U.S. Army Fort Monmouth, New Jersey is pleased to submit the enclosed MODFLOW Groundwater Modeling Report for the Main Post and Charles Wood Areas, Fort Monmouth, New Jersey. The U.S. Army will use these conceptual models with supporting information to develop detailed site specific models. These site-specific models will be utilized in the development of Classification Exception Areas as per the NJDEP Technical Requirements for Site Remediation to identify the projected future extent of site-specific contamination plumes. The Army looks forward to presenting these findings to the NJDEP at your convenience.

Should you have any questions or require additional information, please contact Mr. Charles Appleby, Environmental Protection Specialist, at 732-532-2692 or email:
Charles.Appleby@US.Army.mil

Sincerely,

A handwritten signature in black ink that reads "Joseph Fallon".

Joseph Fallon, CHMM
Chief, Environmental Division
