Memorandum

From: Jim Pastorick
To: Greg Zalaskus
Date: October 27, 2014
Subject: Review of the Final Remedial Investigation Report for the Military Munitions Response Program, Picatinny Arsenal, New Jersey, Dated September 2014

Greg:

Kevin Oates and I reviewed the subject document to ensure that agreements and resolutions of NJDEP comments on previous versions of the report were incorporated into this final version. We find that the final report incorporates the agreements that were reached as documented in the reports of those meetings and discussions.

Based on this review we recommend concurrence with this final report without additional comment.

Please contact me if you have comments or questions on this document review.

Thank you,
