

Turkey hunting in NJ commences 25 APR and ends 27 May 2011. Youth T-hunt Day is 23 APR 11.

HLOGs are ready to go at Police Station, and a list of all authorized Gun hunters possessing CY 11 Sportsman Permits is at the Picatinny Police desk. Authorized gun hunters must have taken the hunter safety briefings on line or at the Outdoor Recreation Center, bldg. 3316. All hunters must have a PICA weapons permit valid for the period of Turkey hunting. Those permits and the safety briefings are good through 31 AUG.

The state biologist decided to have the few Picatinny Arsenal turkey hunters go to a check station nearest to their home

There is no turkey checking on post; simply affix the transport tag that comes with their Turkey permit and get the possession seal at a NJ check station before 1500 IAW state law.

For Picatinny Arsenal purposes, simply have the successful hunter indicate that a gobbler was taken and from which specific HA on the HLOG upon terminating the outing at Police Desk and before their departure to check station->home.
